PROFESSIONAL SUMMARY

I am motivated to innovate in this field and work hard to improve myself. I have been interested in computers and development for a long but in the last few years, i have become more focused on hardware and systems level programming. I am fast learning and adaptive to work in different situations. I have contributed to open source projects, specifically, a complete coverage path planning library to be used for my third year project.

WORK HISTORY

Online Assistant

December 2021 - Present

Part time | Sainsbury's | Ipswich

- I work in a team to prepare orders to be delivered or collected. I also sometimes deliver orders to peoples homes in a company van. This has helped me develop good organisation and communication skills, as well experience with customers

Work Experience Placement

July 2019 - July 2019

Temporary | BT | Ipswich

- 2 week work experience at BT in which i developed a series of HTML web pages, CSS and JavaScript files that were combined with the work of others to create a fully functioning website.

EDUCATION

Beng

Univeristy of East Anglia - 2025
